Thanks to Lindsay's recent purchase of railroad structures and lighting products, you can now purchase the same, reliable and competitive priced products directly from the manufacturer—Lindsay Transportation Solutions.

For quotes or other information, contact Karis Murray at (402) 629-6823 or [karis.murray@lindsay.com](mailto:karis.murray@lindsay.com). We look forward to filling your railroad structures and lighting products needs.

When it comes to quality railroad structures and lighting products,

**NOTHING  
HAS CHANGED  
EXCEPT  
THE NAME.**

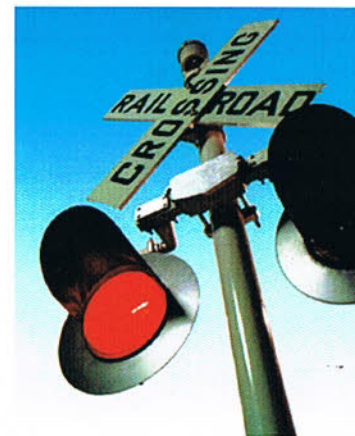

**LINDSAY TRANSPORTATION SOLUTIONS ...**

# Your Source for Quality Railroad Structures and Lighting Products

For the past six years, Lindsay Transportation Solutions has been the predominant supplier of structures to GE Transportation. Thanks to our recent purchase of this product line from GE, you can now purchase the same, reliable railroad structures and lighting products directly from the manufacturer—Lindsay Transportation Solutions. This product line includes: wayside signal structures, crossing signal structures, wayside colorlight and crossing signal light systems.

With support and distribution backed by our experienced, globally integrated company, you can count on Lindsay Transportation Solutions to meet your expectations for quality, completeness and on-time delivery.
